PROFESSIONAL EXPERIENCE

Kilindi District License Management System (KDILMS)

Jan 2026 – Jul 2026

Full-Stack Developer (Final Year Project) — Database & Import Module | Supervisor: Ms. Lilian Mkonyi

- Built a web-based digital licensing platform (Laravel, PHP, MySQL) for Kilindi District Council, centralizing license registration, debt tracking, and reporting to replace manual processes.
- Implemented core modules covering user management, licensing, debt monitoring, SMS notifications, reporting dashboards, and audit logs.
- Applied role-based access control and validation rules to secure data and restrict access by user role.
- Migrated and integrated legacy licensing data from the TAUSI system; tested against real datasets to verify reliability and usability.

Student Support LLM Platform

Jul 2026

Full-Stack Developer (Personal Project)

- Built an AI-powered student support assistant (Python, FastAPI/Uvicorn, Streamlit, Ollama) serving a locally hosted Llama 1B model for natural-language academic guidance.
- Designed a Retrieval-Augmented Generation (RAG) pipeline to ground responses in a custom knowledge base, improving accuracy over general model output.
- Developed the backend API layer and an interactive Streamlit interface for real-time conversational support.
- Optimized for private, cost-effective local inference, removing dependence on external AI APIs.

RJAY Barber Website

May 2026

Freelance Frontend Developer & UI/UX Designer

- Built responsive React interfaces with reusable components to improve customer interaction and online brand presence.
- Translated UI/UX concepts into functional layouts with attention to visual hierarchy and cross-device usability.

FinWise Financial Management App

Feb 2026

Freelance UI/UX Designer

- Designed user flows, wireframes, and high-fidelity interfaces in Figma for a personal finance management application.
- Built a reusable design system and financial dashboards to present complex data clearly, applying UX research and accessibility best practices.

Lenga Business Directory Platform

May 2025

Freelance Web Developer

- Developed a responsive business directory platform (HTML, Tailwind CSS, JavaScript) that improved online visibility for local businesses.
- Designed structured, search-friendly listing pages and reusable UI components; collaborated directly with the client through iterative releases.

ADDITIONAL PROJECTS

- AzamPay USSD Dialer - Practical Training, [Aug 2024]: Built an automated USSD testing tool (Linux, mmcli, AT commands) that streamlined validation of AzamPay transaction functionality.
- Campus Advert Platform - Freelance, [Jul 2024]: Developed a prototype platform digitizing university notice boards, with authentication and categorized announcements.
- Loyola High School Website – [2023]: Contributed to front-end design and layout using HTML, CSS, and JavaScript as part of a team project.

CREATIVE & VISUAL DESIGN EXPERIENCE

Freelance Graphic Designer & Visual Brand Designer

2025 – 2026

University Communities & Organizations

- Delivered graphic design support — posters, certificates, social media graphics, and branding for CoICT, School of Economics, DUEA, DARUSO, UDIAA, DUFA, and IFMSO.
- Built consistent visual identities by applying typography, color systems, and layout composition principles.
- Supported event marketing and digital communications, improving audience awareness and participation across campus initiatives.

EDUCATION

- **The University of Dar es Salaam, Dar Es Salaam** [October 2023 – present]
Bachelor of Science in Business Information Technology
- **Loyola High School** [July 2021 – May 2023]
Advance Certificate for Secondary Education (ASCE) – PMC, Div I
- **Wenda High School** [January 2017 – November 2020]
Certificate of Secondary Education Examination (CSEE) – Div I

CORE COMPETENCIES

Programming Languages: HTML, CSS, JavaScript, PHP, Python

Frontend Development: React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Design, Mobile-first Development, Cross-browser Compatibility

Backend Development: Laravel, FastAPI, RESTful APIs, Backend Architecture, Server-side Development

Database Management: MySQL, PostgreSQL, MariaDB, Database Design, SQL Queries

AI & Emerging Technologies: Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Ollama, AI Application Development

Version Control & Development Tools: Git, GitHub, Linux, XAMPP, Postman

UI/UX & Design tools: Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Adobe Lightroom,

Development Practices: Agile Workflows, Software Documentation, API Integration, Problem Solving, Remote Collaboration

ADDITIONAL INFORMATION

Languages	English (<i>Fluent</i>), Swahili (<i>Native</i>)
Interests	Exploring emerging tech in AI and Web Development, solving real-world problems through code, reading personal development books, Freelance web projects and startup platforms, Reading personal development books, UI/UX trends and digital design
